-

Responsibilities of the Treasure Valley Aquifer Working Group:

- 1) Recommend short-term and long-term management goals and objectives for the Treasure Valley Aquifer together with standards to determine whether the goals and objectives are being met;
- 2) Investigate and make recommendations regarding water supply measures or projects that should be implemented to achieve the short-term and long-term goals and objectives, including but not limited to a proposed recharge plan;
- 3) Investigate the extent of ground water depletions from the Treasure Valley Aquifer and make recommendations for reducing or curtailing ground water depletions;
- 4) Study and recommend methods for funding implementation of Treasure Valley Aquifer management goals and objectives;
- 5) Evaluate and make recommendations regarding an administrative structure for ensuring that short-term and long-term goals and objectives are implemented;
- 6) Develop performance benchmarks for implementation of goals and objectives.
